

INDEX OF VOLUME 8

ORIGINAL SCIENTIFIC PAPERS

BALKOVIČ J., RAMPAŠEKOVÁ Z., HUTÁR V., SOBOCKÁ J., SKALSKÝ R.: Digital soil mapping from conventional field soil observations.	13
BASHARI M., MORADI H.R., KHEIRHAH M.M., KHALEDI M.J.: Temporal variations of runoff and sediment in different soil clay contents using simulated conditions	124
BOUCHELKIA H., BELARBI F., REMINI B.: Estimated flows of suspended solids by the statistical analysis of outfall drainage basin of Tafna (Algeria)	63
DA SILVA JÚNIOR F.M.R., GARCIA E.M., BAISCH R.M., MIRLEAN N., MUCCILLO-BAISCH A.L.: Assessment of a soil with moderate level of contamination using lettuce seed assay and terrestrial isopods assimilation assay	56
DLOUHÁ Š., PETROVSKÝ E., KAPIČKA A., BORŮVKA L., ASH CH., DRÁBEK O.: Investigation of polluted alluvial soils by magnetic susceptibility methods: a case study of the Litavka River	151
FAZLI S., NOOR H.: Storm-wise sediment yield prediction using hillslope erosion model in semi-arid abundant lands	42
GHOLAMI V., KHALEGI M.R.: The impact of vegetation on the bank erosion (Case study: The Haraz River)	158
GRASHEY-JANSEN S.: Grid-based simulation of a lateral move irrigation system	165
HE Q., REN Y., MOHAMED I., ALI M., HASSAN W., ZENG F.: Assessment of trace and heavy metal distribution by four sequential extraction procedures in a contaminated soil	71
HEŘMANOVSKÝ M., PECH P.: Selection of catchment descriptors for the physical similarity approach. Part I: Theory	133
HEŘMANOVSKÝ M., PECH P.: Selection of catchment descriptors for the physical similarity approach. Part II: Application	186
HORÁK J., HEJCMAN M.: Use of trace elements from historical mining for alluvial sediment dating	77
KNIGHT S.S., LOCKE M.A., SMITH S., JR.: Effects of agricultural conservation practices on oxbow lake watersheds in the Mississippi River alluvial plain	113
KODEŠOVÁ R., VLASÁKOVÁ M., FÉR M., TEPLÁ D., JAKŠÍK O., NEUBERGER P., ADAMOVSKEÝ R.: Thermal properties of representative soils of the Czech Republic	141
MIHÁLIKOVÁ M., MATULA S., DOLEŽAL F.: HYPRESCZ - database of soil hydrophysical properties in the Czech Republic	34
MOSTAFA H., THÖRMANN H.-H.: On-farm evaluation of low-pressure drip irrigation system for smallholders	87
NAJAFI-GHIRI M., ABTAHI A.: Potassium fixation in soil size fractions of arid soils	49
NIKODEM A., PAVLŮ L., KODEŠOVÁ R., BORŮVKA L., DRÁBEK O.: Study of podzolization process under different vegetation cover in the Jizerské hory Mts. region.	1
NOOR H., FAZLI S., ALIBAKHSHI S.M.: Evaluation of the relationships between runoff-rainfall-sediment related nutrient loss (A case study: Kojour Watershed, Iran)	172
NOVÁKOVÁ E., KAROUS M., ZAJÍČEK A., KAROUSOVÁ M.: Evaluation of ground penetrating radar and vertical electrical sounding methods to determine soil horizons and bedrock at the locality Dehtáře	105
UENO S., SUGITANI K.: Systematic geochemical study of the soils, litter, and bedrock of a Permian limestone mountain, Central Japan	178
VÁŠÁT R., PAVLŮ L., BORŮVKA L., DRÁBEK O., NIKODEM A.: Mapping the topsoil pH and humus quality of forest soils in the North Bohemian Jizerské hory Mts. region with ordinary, universal, and regression kriging: cross-validation comparison	97
VÁŠŠOVÁ D.: Comparison of rainfall-runoff models for design discharge assessment in a small ungauged catchment	26
