

INDEX OF VOLUME 19

REVIEWS

WANG N.N., ZHANG T.B.: Soil pore structure and its research methods: A review	1
JULIEV M., Kholmurodova M., ABDIKAIROV B., ABUDUWAILI J.: A comprehensive review of soil erosion research in Central Asian countries (1993–2022) based on the Scopus database	244

ORIGINAL SCIENTIFIC PAPERS

ANEKWE I.M.S., ISA Y.M.: Application of biostimulation and bioventing system as bioremediation strategy for the treatment of crude oil contaminated soils	100
AUTOVINO D., BAGARELLO V., CALTABELLOTTA G., FUSCO M., IOVINO M.: Determining saturated hydraulic conductivity of a repacked loam soil by the simplified falling-head technique: Impact of sieving duration and scraping of exposed surfaces	210
AZLAK M., ŞAYLAN L.: Analysing the impact of climate change on evapotranspiration in a climate-sensitive region: Example of Central Anatolia (Türkiye)	64
BALONTAYOVÁ E., PETLUŠOVÁ V., PETLUŠ P., HREŠKO J., KOCO Š.: Soil organic carbon and its labile fractions in the conditions of water erosion on arable land of Chernozems area	90
ENKHTAIVAN E., VACEK O., VOKURKOVÁ P., SPASIĆ M., VAŠÁT R., DRÁBEK O.: Temporal changes of soil characteristics on Lítov spoil heap, Czech Republic.....	133
GREGAR J., PETRŮ J., KALIBOVÁ J., ÜRGE V., KINCL D., VOPRAVIL J.: Impact of intercrops on soil loss and surface runoff from sloping maize fields	168
IORDACHE M., BREI L., RADULOV I., GAICA I., DICU D., CHIŞ C.: The water repellency of earthworm (<i>Lumbricus terrestris</i>) casts depends on their particle size composition, organic carbon content and calcium carbonate content	144
JIRU M., MEKONNEN B., RITZEMA H., ABREGAZ F.: Assessment of soil salinity and environmental factors in the Kesem irrigation scheme, Afar Region, Ethiopia	191
KUČERA J., BLECHA M., PODHRÁZSKÁ J., SZTURC J., FUKALOVÁ P., STŘEDOVÁ H.: Impact of winter conditions on wind erosion susceptibility of clay soils	218
LIESKOVSKÝ J., LIESKOVSKÝ T., KOŠANOVÁ S., BÍROVÁ L.: Application of LiDAR visualisations for mapping the tillage direction	200
MADARAS M., KREJČÍ R., MAYEROVÁ M.: Assessing soil aggregate stability by measuring light transmission decrease during aggregate disintegration	25
MEITASARI R., HANUDIN E., PURWANTO B.H.: Comparison of two soil quality assessment models under different land uses and topographical units on the southwest slope of Mount Merapi	77
MYSZURA-DYMEK M., FUTA B., ŻUKOWSKA G., RÓŻOWICZ K., BŁOŃSKI N.: The use of enzyme assays to assess soil biodiversity of diverse land use systems integrating trees – Preliminary research	122
NOZARI S., PAHLAVAN-RAD M.R., BRUNGARD C., HEUNG B., BORŮVKA L.: Digital soil mapping using machine learning-based methods to predict soil organic carbon in two different districts in the Czech Republic	32
PAVLŮ L., BALÍK J., PROCHÁZKOVÁ S., GALUŠKOVÁ I., BORŮVKA L.: How to measure soil quality? A case study conducted on cropland in the Czech Republic	229
PETERS O.M., HARUNA S.I.: Does no-till cover crop influence <i>in situ</i> measured soil water potential and saturated hydraulic conductivity?	154

POSPÍŠILOVÁ L., PLISKOVÁ J., JAKES V.A.J., ZIKMUND T., SEDLÁK L., EICHMEIER A., KLEMENT A., KODEŠOVÁ R., BORŮVKA L., KAISER J., MENŠÍK L.: Computed tomographic visualisation and 2D/3D microscopic evaluation of soil macro- and micromorphology	176
PRACHOWSKI J., SZTURC J., KUČERA J., PODHRÁZSKÁ J.: Erosion risk analysis in a changing climate	50
RAKHMANOV D., ŠARAPATKA B., ALIBEKOVA K., ČERNOHORSKÝ J., HEKERA P., SMANOV Z.: Assessment of agricultural land salinization via soil analysis and remote sensing data: Case study in Pavlodar region, Kazakhstan	111
